## 1. Background

1.1	In accordance with the Constitution, the Overview & Scrutiny Committee is responsible for setting its own work programme.
1.2	<p>In considering items for their work programme the Committee are requested to take into account the guidance published by the Centre for Governance and Scrutiny (CfGS) 'Overview and scrutiny in combined authorities: a plain English guide' (Second Edition) which states:</p> <p>"That where the Committee takes a rigorous approach to prioritising its work, and only placing items on the work programme where they will clearly add value, and where they relate to scrutiny's role, the work programme will reflect that exercise."</p> <p>That guidance continues with a section on approaches to shortlisting topics which states when shortlisting topics these "should reflect scrutiny's overall role in the authority. This will require the development of bespoke, local solutions, however when considering whether an item should be included in the work programme". The kind of questions a scrutiny committee should consider, therefore, might include:</p> <ul style="list-style-type: none"><li>• Do we understand the benefits scrutiny would bring to this issue?</li><li>• How could we best carry out work on this subject?</li><li>• What would be the best outcome of this work?</li><li>• How would this work engage with the activity of the executive and other decision-makers, including partners?</li></ul>
1.3	While an agreed work programme will assist in managing committee activity, it should be recognised that unforeseen matters will arise from time to time that will affect Members' ability to achieve the goals within an overall work programme.
